## **EXAMINER'S AMENDMENT**

 An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR
 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Tufte on 12/18/09.

2. The application has been amended as follows:

1. (Currently Amended) A method of accessing a schedule on a<u>n HVAC</u> controller having coupled to a user interface, wherein the HVAC controller is configured to directly communicate with and control one or more pieces of HVAC equipment in accordance with a programmable schedule, the method comprising the steps of:

manually initiating a schedule review mode within the <u>HVAC</u> controller, said schedule review mode permitting viewing access only and not permitting editing access to at least two schedule parameters in the schedule,

while in the schedule review mode, manually selecting via the user interface <u>of the</u> <u>HVAC controller</u> any of the two or more schedule parameters;

in response to the manually selecting step, displaying the manually selected schedule parameters via the user interface without first having to wait for other schedule parameters to be automatically sequentially displayed on the user interface <u>of the HVAC controller</u>; <del>and</del>

exiting the schedule review mode; and

operating the HVAC controller in accordance with the schedule.

2. (Currently Amended) The method of claim 1, further comprising the steps of: initiating an editing mode within the <u>HVAC</u> controller; and

Application/Control Number: 10/725,826 Art Unit: 2121

while in the editing mode, modifying at least one schedule parameter of the schedule resulting in a modified schedule, wherein the schedule review mode must be exited before the editing mode is initiated; and

operating the HVAC controller in accordance with the modified schedule.

3. (Original) The method of claim 2, wherein the step of initiating the schedule review mode occurs prior to the step of initiating the editing mode.

4. (Previously presented) The method of claim 1, wherein said schedule includes at least two time periods, with one or more schedule parameters corresponding to each of the at least two time periods, at least one of the time periods corresponding to a wake period, a leave period, a return period, or a sleep period.

5. (Previously presented) The method of claim 1, wherein said two or more schedule parameters includes one or more of an event time parameter, a heat set point parameter, a cool set point parameter, a fan mode parameter, and a humidity level parameter.

6. (Currently Amended) The method of claim 1, wherein the user interface <u>of the</u> <u>HVAC controller</u> comprises a touch screen.

7. (Currently Amended) The method of claim 1, wherein the user interface <u>of the</u> <u>HVAC controller</u> comprises a display panel and keypad.

8. (Currently Amended) The method of claim 1, wherein the user interface <u>of the</u> <u>HVAC controller</u> is a menu-driven interface.

9. (Original) The method of claim 1, wherein said schedule is a heating schedule.

10. (Original) The method of claim 1, wherein said schedule is a cooling schedule.

Application/Control Number: 10/725,826 Art Unit: 2121

11. (Original) The method of claim 1, wherein said schedule is a venting schedule.

12. (Currently Amended) The method of claim 1, wherein said controller is an HVAC thermostat mountable to a wall of a building or other structure controller.

## Allowable Subject Matter

3. Claims 1-13 are allowed.

4. The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose manually initiating a schedule review mode within the HVAC controller, said schedule review mode permitting viewing access only and not permitting editing access to at least two schedule parameters in the schedule, while in the schedule review mode, manually selecting via the user interface of the HVAC controller any of the two or more schedule parameters; in response to the manually selecting step, displaying the manually selected schedule parameters via the user interface without first having to wait for other schedule parameters to be automatically sequentially displayed on the user interface of the HVAC controller, wherein the HVAC controller is configured to directly communicate with and control one or more pieces of HVAC equipment in accordance with a programmable schedule. The allowability, at least in part, resides in these facts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHARLES R. KASENGE whose telephone number is (571)272-3743. The examiner can normally be reached on Monday through Friday, 8:30 - 5 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Albert DeCady can be reached on 571 272-3819. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
